Item 3.01 Notice of Delisting or Failure to Satisfy a Continued Listing Rule or Standard; Transfer of Listing.

Effective on January 9, 2019, the Board of Directors of DiaMedica Therapeutics Inc., a business corporation governed by the Canada Business Corporations Act (the “Company”), approved an application to the TSX Venture Exchange (the “TSXV”) to voluntarily delist from trading the Company’s common shares on the TSXV. Given the recent listing of the Company’s common shares on The Nasdaq Capital Market in connection with its December 2018 initial public offering of its common shares in the United States, the Company believes that the financial and administrative costs associated with maintaining a dual listing are not justified. The Company expects that its voluntary delisting application will be effective at market close on January 18, 2019, and the Company’s common shares will no longer be traded through the facilities of the TSXV. The Company’s common shares are currently traded, and will continue to trade, on The Nasdaq Capital Market under the symbol “DMAC”.

A copy of the Company’s press release announcing the voluntary delisting of its common shares from the TSXV is attached hereto as Exhibit 99.1 and is incorporated herein by reference.

DiaMedica Therapeutics Announces Voluntary Delisting from TSX Venture Exchange

Minneapolis, Minnesota, January 9, 2019 (GLOBE NEWSWIRE) -- DiaMedica Therapeutics Inc. (Nasdaq: DMAC) (TSX-V: DMA), a clinical stage biopharmaceutical company, announced today that it has applied to voluntarily delist its voting common shares from the TSX Venture Exchange.

The Company's common shares are expected to be delisted from the TSX-V at the close of business on January 18, 2019, being approximately 10 days from today's date. DiaMedica's shares will continue to be listed for trading on The Nasdaq Capital Market ("Nasdaq") under the trading symbol "DMAC." The Company believes that the continued listing of its common shares on the Nasdaq will provide its Canadian shareholders with a sufficiently liquid market and further, that the financial and administrative costs associated with maintaining a dual listing are not justified.
